Latvia has an amazing landscape marked by lowland plains, rolling hills, forests, covering 44 % of the territory and thousands of rivers and lakes. Bike tour, nature hunt or skiing trip - you can explore nature's wonders in Latvia any season, any time!

## THE 1<sup>ST</sup> CHRISTMAS TREE IN THE WORLD WAS DECORATED IN RIGA?

The first documented use of a spruce-tree in a Christmas celebration took place in Riga, Latvia, in 1510. Christmas markets, an excellent source of handicrafts and customized presents, are still an important part of the holiday spirit in the Baltics. Throughout December and January, they ensure a magical atmosphere in the very heart of the Old Town.

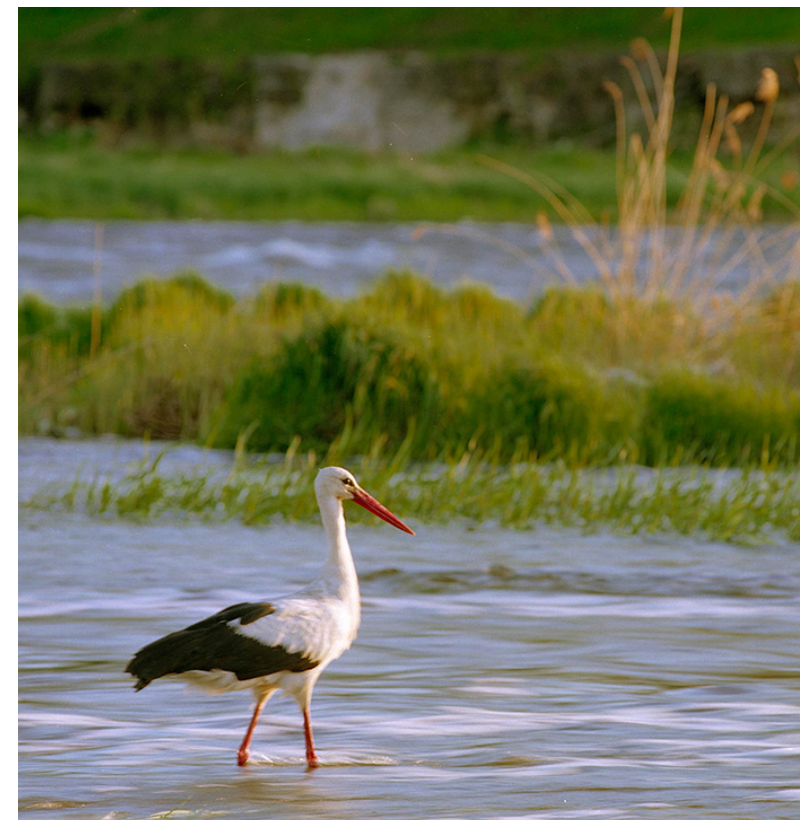

## AMERICAN JEANS WERE INVENTED BY A LATVIAN?

In California in the 1850s, Levi Strauss was selling blue denim work pants to local workers. One of his regular wholesale customers was tailor Jacob Davis, who was born in Riga. He came up with the idea to use copper rivets for reinforcing the pockets and seams of the pants. Based on his U.S. Patent 139,121 many consider it the official "birth" of the blue jeans. Today, talented designers in Latvia's fashion industry are winning world competitions with stunning designs, combining Latvian tradition with modern fashion.

# RIGA

## POPULATION

693,064 (January 2014)

## FOUNDING

Founded in 1201. Riga is one of the oldest European capital cities.

## THE LEGEND OF RIGA

Once upon a time, a man, wearing a black coat came out of the river Daugava. He struck the ground three times with his walking stick and asked if Riga was ready. But it wasn't, so the man went back into the river. He is believed to appear every hundred years. The day Riga will be ready, the man in the black coat will drown it. The wise people of Riga know that the city will never be completed. It will always be growing and developing.

## RIGA TODAY

Hundreds of years ago Riga was known as the 'Paris of the North'. Now, a little more than 800 year old Riga is called 'The Second City that Never Sleeps' and the 'Hottest City in the North'. Riga is blossoming as a creative center for the arts and culture, revealing its status as the Metropolis of the Baltics, and presenting a unique cultural heritage, created by the impact of multiple cultures, rulers and local legacies.
